

Long Range Planning Committee

MEETING AGENDA

April 15, 2022, 10:00am – 11:00am

1. This meeting will cover the latest request from the board to develop options for a clubhouse restoration or replacement. Funds for the project will be allocated from current and future LACC reserves.
2. We will review the plan work to date, identify additional considerations and develop a proposed budget for each option.
3. We will also discuss the plan to develop member participation through a donation plan in conjunction with the LACF.
4. We can also hopefully coordinate a presentation by a member that has developed their own design.
