G&B Welding owner Gary Ponciano has 20 years of welding experience and has served the Lake Almanor community and surrounding area for the past 9 years. Gary is AWS certified for most all types of structural steel and specializes in aluminum fabrication and repair of docks, boat work, staircases. In addition, G&B is experienced in the fabrication of ornamental iron such as deck railings and staircases.

We do TIG welding and equipment repair in the shop or at your location. We're a small "Mom and Pop shop delivering high quality iron and aluminum projects at reasonable prices.

Some of our work is pictured below:
